

SMOKING POLICY

As part of its continuous review of health and safety matters, the Company has considered the current evidence of the health risks associated with passive smoking, as well as the discomfort suffered by non-smokers exposed to tobacco smoke.

The aim of the smoking policy is to guarantee the right of non-smokers to breathe smoke free air at work, whilst also taking into account the needs of those who smoke. The policy is not concerned with whether people smoke, but with where they smoke whilst on our premises.

This Policy has been written in accordance to The Health Protection (Control of Smoking) Law of 2017 duly amended, which explicitly prohibits workers from smoking in working premises.
